ABOUT ME

I am a final-year Software Engineering student at the Faculty of Technical Sciences, University of Novi Sad. Seeking to build on my academic foundation and early professional experience, I take pride in clean, thoughtful work and am always looking to learn.

WORK EXPERIENCE

Frontend developer 2025–2026
FKL Info Data application

The FKL Info Data App is an official mobile tool from FKL factory for agriculture and industrial professionals to access a bearing cross-reference database, available on Android and iOS. It enables quick identification of bearings by product designation or application, helps manage product lists, and offers direct contact with FKL support.

The company proudly presented the app at AGRITECHNICA fair in Hanover, Germany.
